DECLARATION

We, Bhimashi Zalli (1RV23MC023) ,Lakshmisagar J M (1RV23MC048) and Mohammed Sadiq Pasha (1RV23MC056) students of Third Semester MCA hereby declare that the Experiential Learning - 1 Report titled **"Sustainable Debris management"** has been carried out and completed successfully by us.

Date of Submission: **Signature of the Student**

Bhimashi Zalli (1RV23MC023)

Lakshmisagar J M (1RV23MC048)

Mohammed Sadiq Pasha (1RV23MC056)

ACKNOWLEDGEMENT

The satisfaction of achieving milestones in any endeavor is significantly amplified by acknowledging the invaluable contributions of those who supported, encouraged, and guided us throughout the process.

We extend our sincere appreciation to Dr. K N Subramanya, Principal, RV College of Engineering®, for his continuous support and encouragement.

Special thanks are due to Dr. Jasmine K S, Professor & Director, Department of MCA, RV College of Engineering®, for her unwavering support and insightful guidance.

We extend our heartfelt gratitude to our internal guide, Prof Saravanan C, Assistant Professor, Department of MCA, RV College of Engineering®, for his unwavering support, encouragement, and guidance throughout the project.

We are also grateful to all teaching and non-teaching staff members who graciously responded to our requests and provided essential assistance, without which the successful completion of this project would not have been possible.

Bhimashi Zalli (1RV23MC023),

Lakshmisagar J M (1RV23MC048),

Mohammed Sadiq Pasha (1RV23MC056)

Bengaluru 59.

EVALUATION SHEET

Q No	Question	Marks Assigned	Marks Obtained	CO	BTL
1.	Topic Understanding	05			
2.	Seminar content/ Course content	05			
3.	Presentation skills	10			
4.	Depth of knowledge/Research paper publication/Course performance	10			

Course Outcomes: After going through this course, the student will be able to	
CO1	Understand the need and fundamental concepts of Business Intelligence, Big data and visualization in real world applications
CO2	Identify and apply big data analytics frameworks and visualization techniques for decision making
CO3	Apply data science concepts to real world applications
CO4	Analyze the use of big data analytics and visualization for business applications
